2.6. Manufacturers and/or distributors who provide goods and services that may be placed as advertising distribution on the territory of the Promotion are not partners, sponsors, and/or co-organizers of the Promotion.

2.7. Any images on the Organizer's SuperGra Portal/Mobile Application, advertising and information materials, electronic media, platforms, and other digital and/or information devices, including in the form of signs and/or designations of money, are not instructions and/or documents guaranteeing any types of rights to Players participating in the Promotion.

3.1. The Prize Pool of the Promotion is Offers in the form of 15 000 Super spins, which are distributed in separate parts among the Players and/or Offers in the form of electronic money substitutes, according to the results of the Day of the Promotion, took from 1 to 300 prize places in accordance with these Promotion Rules.

The Prize Pool of the Promotion is formed at the discretion of the Organizer. The qualitative, quantitative, including technical and other characteristics of the Offers, are determined by the Organizer.

The Player participating in the Promotion undertakes to independently monitor all changes on the Organizer's SuperGra Portal/Mobile Application, including but not limited to the description of the Promotion, conditions of participation in the Promotion, these Rules, etc.

3.2. Under the terms of this Promotion, the Player who, during the Promotion, takes part in any Gambling Game of the Slots type, which is announced on the Organizer's SuperGra Portal/Mobile Application for use in the Promotion, and performs a Spin daily using electronic money substitutes from the Game balance with a bet from 1 UAH per day, automatically accepts participation in the Promotion and claims to receive winnings in the form of Super spins and/or Offer in the form of electronic money substitutes with the condition of Wagering with no Wager, depending on the prize place taken in the Promotion for the day. Taking a prize place in the Promotion for the day allows you to receive a share of the daily Prize Pool of the Promotion in the amount of 15 000 Super spins and/or Offer in the form of electronic money substitutes.

3.3. The Player who, based on the results of bets made in Gambling Games during the day, has a win, automatically receives the Player's winning coefficient, which determines, relative to the Player, a place in the promotion among 300 prize places, the number of prize Super spins from the Prize Pool of the promotion per Day and/or Offer in the form of electronic money substitutes.

3.4. Player's winning coefficient — the ratio of the Player's winning amount to the Player's Spin bet amount. Based on this rule, the calculation of the size of the Player's winning coefficient is carried out according to the following principle, for example, if conditionally:

- Player 1 made a Spin in a Gambling Game with a bet worth 1 UAH, and as a result, their winnings were 1 300 UAH; then they made a Spin with a bet worth 10 UAH, and, as a result, they won 2 000 UAH; then they made a Spin again with a bet of 5 UAH, and as a result, the win was 700 UAH; then the calculation of the Player's winning coefficient is as follows: $(1300:1)+(2000:10)+(700:5) = 1640$ UAH, where the Player's winning coefficient is the result that equals 1 640.

- Player 2 made a Spin in a Gambling Game with a bet worth 2 UAH, and, as a result, their winnings were 2 000 UAH; then they made a Spin with a bet worth 6 UAH, and, as a result, they won 2 500

UAH; then they again made a Spin with a bet of 12 UAH, and, as a result, the winnings were 600 UAH; then the calculation of the Player's winning coefficient is as follows:
 $(2000:2)+(2500:6)+(600:12) = 1466,55$ UAH, where the Player's winning coefficient is the result that equals 1 466,55.

- Player 3 made a Spin in a Gambling Game with a bet worth 8 UAH, and as a result, their winnings were 5 000 UAH; then they made a Spin with a bet worth 3 UAH, and as a result, they won 1 300 UAH; then they again made a Spin with a bet of 15 UAH, and as a result, the winnings were 3 500 UAH; then the calculation of the Player's winning coefficient is as follows:
 $(5000:8)+(1300:3)+(3500:15) = 1291,66$ UAH, where the Player's winning coefficient is the result that equals 1 291,66.

Thus, the rating of Players in the Promotion and the distribution of prize places in the Promotion per Day can be roughly as follows, for example:

- First place — Player 1 with a winning coefficient of 1 640.
- Second place — Player 2 with a winning coefficient of 1 466,55.
- Third place — Player 3 with a winning coefficient of 1 291,66.

The distribution of the Super spins Prize Pool (by denomination and quantity) among the prize places of the Promotion and/or Offers in the form of electronic money substitutes is carried out and published on the Organizer's SuperGra Portal/Mobile Application.

3.5. 3.7. At the end of the Day, the Player's winning coefficient in the Promotion for the Day is reset, and from the beginning of the new Day of the Promotion, the calculation of the Player's winning coefficient for the Day, according to the Rules of the Promotion, starts anew in the same way.
